

NEOFLAM[®]

Bringing kitchens to life

A better choice for healthier cooking
NEW cast aluminum cookware from NEOFLAM

Cube™

Contemporary Design & High Performance.

About Eolon™ Coating

Cube™

Eolon™ coating

Eolon™ coating is Neoflam's superior nonstick ceramic coating. Dedicated to consumer & environmental health, Neoflam has created Eolon™ from the Earth's natural and sustainable minerals.

Superior Durability

Eolon™ coating is applied to the interior and exterior, making the product extremely scratch resistant.

Safe

Eolon™ coating is free of harmful chemicals such as PFOA/PTFE.

Easy to Clean

Powerful nonstick allows for cooking with less oil & makes cleaning a breeze.

About Cast Aluminum Cookware

Cube™

Convection effect

Cast aluminum body & lid work together to create a convection effect, producing currents of hot air for more efficient cooking.

Light weight

Cast aluminum cookware is 1/3 the weight of cast iron.

Various design

A variety of stunning shapes & design features are available.
